***People are talking about The Critters.....Testimonials***

*"Working with Don Ciccone and fellow "Critters" Milt Koster, Albert Miller and Lenny Rocco is a personal and professional delight. A Critters show is a guaranteed ticket to an outstanding performance of great music and musicianship incorporating the band's hits old and new, then the journey takes you further into the music and hits of The Four Seasons and Tommy James & the Shondells..... both bands enjoying the good fortune of having Don Ciccone as one of The Four Seasons for nearly ten years and as a member of the Shondells during its multi-hit era.*

***The band delivers everything and more a promoter and an audience could ask for!"***
